

MM Shockwave

Tired of Maintaining your
in-competent Air Cannons
but worrying about
budget to change them...
Stop Thinking

Yet another ground breaking Innovation from MM Overseas called the MM Shockwave. A revolutionary Air Blasting head which can be Retro fitted/ connected to any tank and make it almost as efficient as a MM Air Blaster. With the same aim to optimize productivity and increase performance of your existing in-capable Air Cannons with cost effectiveness.

Providing best performance with Negligible maintenance, wirelessly without any cables coming up to the Air Blasting Head making it easy to maintain with no risks of electrical shock howsoever.

Can be used at

- Cement Plants.
- Sugar Industry.
- Mining Industry.
- Power Plants
- Limeworks
- Mills
- Petrochemicals
- Steel Plants

Advantages:

- Can be easily mounted on any Air Tank
- Increases the performance of the Air Cannon already installed.
